

For cryotherapy treatment with cones and buds

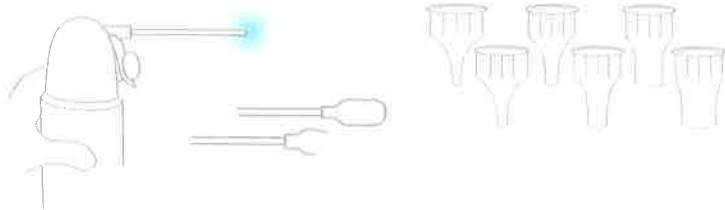

# CRYODOSE V

Open the CryoDose V Reusable Treatment Kit and you'll see the patient-friendly quick reference guide; you'll appreciate the increased treatment options of having six sizes of dosing cones, and both arrow and round buds. You'll notice the secure fit of the buds – and the touch-sensitive actuator that averts waste. And you'll appreciate that with CryoDose V, all parts can be ordered separately.

CryoDose V makes your cryotherapy practice more perfect.
